Product Specification Sheet

ExpressCard Docking station with Digital Video and Audio

Part #: ACP60EU

Product Description:

The Targus ExpressCard Notebook Docking Station with Digital Video and Audio provides a single “one touch” high-speed peripheral device attachment with your express card compatible notebook. It has the capability to transfer data at rates up to five times faster than USB 2.0 (up to 2.5 gigabits per second).
This innovative docking station supports digital video and audio, Gigabit Ethernet (10/100/1000), a serial device, and four Hi-Speed USB devices, providing maximum productivity.

Product Features and Specifications:

- Connectivity: provides easy connection to your external keyboard, monitor, printer, speakers or other peripheral devices
- ExpressCard Performance: provides up to 5 times faster data transfer rates than USB2.0, resulting in improved digital and audio port performance
- Includes extra features such as 5.1 channel surround sound support, VGA and DVI support, always on and high-power ports
- Compatible with most notebooks that support ExpressCard technology
